SUMMARY

I hold a BSc degree in Computer Science from the University of Szeged, with a specialization in DevOps and in Image Processing.

My thesis focused on solving a practical problem using DevOps and Image Processing technologies.

I also hold the KodeKloud DevOps Pro certification.

Regarding languages, I communicate confidently in English at B2 level, German at C1 level and Slovenian at C1 level.

Professionally, I would like to further deepen and develop my knowledge in the field of DevOps or in the field of Image Processing.
